

INDUSTRIAL CONTROLS & AUTOMATION

OUR MISSION

RASP Inc. is dedicated to establishing customer relationships and providing them with a complete solution for any industrial control manufacturing, system design or programming requirements. In today's world of fast-changing technology, it is often challenging for companies to stay current with the latest innovations or the ability to manage older systems. In addition, many companies might not be fully staffed for projects requiring engineers, programmers, manufacturing and installation personnel. These are just a few of the reasons companies' partner with RASP Inc. for their projects or manufacturing requirements.
